

**Title : Stuck Up Girl (feat. Mark S. Bonafide)**

**Composer : Taufik Batisah**

**Lyricist : Taufik Batisah**

You see me walking by, you pretend like you don't know  
What I'm all about, I can do things you've never heard  
Telling all your friends, you can have any man here  
Walking on your clouds, now it's time you fall off dear

**Pre-chorus**

She knows what she wants  
When she wants, She will try to get it  
She will lead you on  
Then she's gone, She won't let you get it

**Chorus**

She's got it going, She knows it  
She's teasing all the boys and  
Them girls, they've been trying  
They'll never win

Don't stop boy, What you doing  
Play it hard, You'll find your way in  
Don't be scared, I won't hurt it  
I know you wanna get with me so  
Don't stop boy, What you doing  
Play it hard, You'll find your way in  
Don't be scared, I won't hurt it  
Ain't nothing wrong I'm just a stuck up girl

You're checking at your time, Now it's time take position  
Move in to the floor, There you dance like an Egyptian  
Trying not to smile at the boys, You reject them  
Then I caught you eye, You just sigh like I'm one of them

**Bridge**

She acts like, The world is at her feet  
She don't know that she needs  
To get with a boy like  
Before she leaves

**Rap**
