

**Title : Sing Sing Sing**

**Composer : Aaron**

**Lyricist : Aaron**

Many years have passed since independence  
We are the future generation of that day  
Times went by with many changes  
As we prospered through the ages  
We're so very international today

A price was paid to reach world recognition  
By dedicated men who paved the way  
What a great divine blessing  
That our nation's still progressing  
We're singing songs of our beautiful island  
with joyful melody

**CHORUS**

Sing sing sing  
Songs of our country  
Sing sing sing  
As we live in harmony  
Sing sing sing  
With our friends and family  
Singing Singaporean style in unity

You can hardly spot our island  
on the world map  
Yet the tourists they keep coming everyday  
People come from every nation  
Say our food's such a sensation  
Our hawker center's cooking night and day  
As we gaze upon the far horizon  
We may wonder what our future  
has in store  
It's a struggle we all know it  
But we're lions don't forget it  
We will face the storms and  
reach the stars  
That shine upon our shore

**CHORUS**
