

**Title : More Than A Garden City**

**Composer : Srirekam Jay Shotam**

**Lyricist : Srirekam Jay Shotam**

There's a tropical island  
Floating on the sea  
Just along the equator  
Above zero degrees  
It's the land of hot chilli crabs  
And cool evening breeze  
It's the place that gave the world  
The famous Singapore Sling

This tropical island  
Gets five million tourists  
It's got a Chinatown and a Little India  
Malay, Eurasian communities  
It's a super shining diamond  
Sparkling in the sea  
And everybody that you meet all  
They smile easy

**Chorus**

More than a Garden City  
For you and me (X2)  
With spirit first and mind follows  
Body just belongs  
More than a Garden City  
For you and for me

Tough times never last  
But tough people do  
You're the apple of everyone's eye  
You can come shining through  
You're the land where great ideas flow  
And become great dreams  
You're the one that gave the world the famous  
Singapore Sling

**Refrain:**

Spirit first mind follows  
Body just belongs (X4)
