Verse 1

Singapore, we play a part
To have peace and harmony
They say we complain too much
Let's prove them all wrong
Singapore we are united
Let's work together with graciousness
There's so much to do, so much to learn
Let's all be grateful

Chorus

Your smile lights up the city
Love and kindness is the key
Now all that we need to do is
Have more respect for all
Singapore we shouldn't feel so glum
Our hearts will always beat as one
We may all be very different
But we're together no matter what

Verse 2

Singapore, let's lend a hand
To help others who're in need
Let's learn to love our family
And don't forget our friends too
Singapore we stand as one
To pass the love to everyone
Let's learn to share and learn to care
Then we will be a better place

Chorus (x2)

Bridge

It's our dream to be
A place with gladness
With smiles around
Our dream and we'll be
A place that's great for you and me
Chorus
