

Title : Love Nut

Composer : Leon Lim

Lyricist : Leon Lim

Sitting in a room with nothing to do
I play my guitar and tambourine too
Little did I know that out in the dark
Two courting couples are starting to
Then I dreamt I kissed the sun
Then I dreamt she said she would come
So I am thinking of flying away
Up with the clouds is where I'd stay

Sitting in a room with a happy song
I play my guitar now you sing along
Little did I know that out in the park
Are all the animals from noah's ark
Then I dreamt I was a cloud
Playing with the sun and singing out loud
Now I am flying free above
Living with the breeze sunshine and love
For the peace of love we play
Green is the colour of hope
Through him with him and in him
Joy's kaleidoscope
